PROFESSIONAL EXPERIENCE

MEAN/MERN Stack Developer Intern — Devanta Tech

Jan 2026 – Present | On-site

- Build and maintain scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js for IIoT and industrial cloud automation solutions.
- Design and implement RESTful APIs with secure JWT authentication, converting business requirements into reliable backend logic for enterprise clients.
- Collaborate in Agile sprints contributing to sprint planning, code reviews, and retrospectives while upholding clean coding standards.
- Integrate cloud services and third-party APIs to support Software Implementation and Engineering & Support Services projects.

MEAN/MERN Stack Intern — Farmseasy

Sep 2025 – Dec 2025 | Hybrid

- Delivered 6+ industry-level projects for startups, including wireframes, prototypes, and high-fidelity designs that improved user satisfaction by 30%.
- Collaborated with developers to implement responsive mobile and web app interfaces using React, reducing design to development handoff time by 20%.
- Conducted user testing sessions to refine workflows, resulting in a 15% increase in user retention.

PROJECTS

TinyNeedsApp — Personal Project

Mar 2025

- Developed a cross-platform mobile shopping app for baby essentials using React Native, JavaScript, Expo, and REST APIs with secure Stripe payment integration and Supabase authentication.
- Optimized checkout flow, improving efficiency and reducing user drop-offs by 20% through streamlined UX and API performance tuning.
- Implemented real-time database sync and session management using Supabase, ensuring data consistency across devices.

EDUCATION

Bachelor of Engineering — Computer Engineering — Deogiri Institute of Engineering and Management Studies (DIEMS)

Jun 2022 – May 2026

- CGPA: 7.43 / 10
- Completed full-stack capstone projects and actively participated in technical clubs and competitive coding contests.
